

REMARKS

Claim 1 was in the application as originally filed and has been deleted. Applicant has added new claims 2-21 and, based on the inventorship thereof, is amending the inventorship to add Jose A. Nunez as a co-inventor. Such necessary documents to add Jose A. Nunez are being sent concurrently by mail under separate cover.

For the convenience of the Examiner, Applicant notes that the presently claimed invention involves deployment of communications systems providing voice/data communications in a "headless" manner; namely, no computer monitor is used, and human resources that are typically consumed in testing or installing such systems are saved with deployment of such communications system utilizing a deployment physical medium and described and claimed by Applicant. See, e.g., pages 112-114 of Applicant's specification.

Applicant submits that the papers accompanying this amendment properly correct inventorship while maintaining Applicant's claim for priority.

No new matter has been added.

Please charge any additional fees due, or credit any overpayment, to Deposit Account No. 50-0251.

If there are any questions regarding the foregoing, Applicant's attorney requests an opportunity to discuss such matters with the Examiner by way of a telephone or in-person interview.

Respectfully submitted,

Alan R. Loudermilk
